

# Harm Reduction & Addiction Services at CrescentCare

Wherever you are, we're here for you

## Prevention

CrescentCare houses the [New Orleans Syringe Access Program \(NOSAP\)](#) which provides:

- Sterile injection equipment
- Safe syringe and supply disposal
- HIV/HCV/Syphilis rapid testing and linkage to care
- Naloxone distribution
- HepA vaccinations
- Urgent medical visits

Fridays 12-5 pm  
1631 Elysian Fields Ave  
*No intake or scheduling required, services provided anonymously*

## Mental Health & Therapy

CrescentCare offers supports for a range of behavioral health needs, from short-term crisis counseling to ongoing psychiatric care for clients experiencing addiction and mental illness.

*Requires intake assessment*

[Recovery Works](#) provides Intensive Outpatient Program (9 hours/week) and group intervention (1 hour/week) for people who are working towards sobriety from drug use.

*Requires intake assessment*

## M.A.T.

Medication Assisted Treatment at CrescentCare's Suboxone (Buprenorphine) Clinics follows a harm-reduction approach.

We have several licensed providers who are able to prescribe medicines such as Suboxone and Vivitrol to treat opioid use disorder. We are unable to prescribe Methadone but can help link you to someone who can.

*Requires intake assessment*

## Primary Care

CrescentCare provides comprehensive primary and specialty care. A number of our providers specialize in HIV and Hepatitis C treatment.

There is a cure for Hep C and it is fully covered by Medicaid. There are no sobriety requirements for Hep C treatment.

Medicaid and insurance enrollment services are also available to those without active insurance.
